PROFESSIONAL SUMMARY

Technical Writer with 2.8 years of experience in a B2B SaaS Digital Adoption Platform, owning end-to-end documentation across 7+ product pods. Leverages customer research, support insights, and product analytics to identify user friction and deliver task-driven documentation that improves adoption and reduces support dependency. Built scalable automation systems, reducing manual effort by ~60%. Recognized for strong product ownership, fast execution, and direct contributions to product OKRs. Promoted twice within two years.

SKILLS

Documentation: User Guides, Release Notes, FAQs, Troubleshooting Guides, In-App Guidance (DAP), UX Writing, Information Architecture, Content Strategy, API Documentation

Tools: Document360, Confluence, Jira, Whatfix, Camtasia, Snagit, Synthesia, Figma, Canva, Draw.io, GitHub, HTML, CSS, Markdown, VS Code

Automation and Technical: Python, Google Apps Script, Jira API

Analytics and Research: Whatfix Analytics, CallAI/Chorus, Zendesk, Usability Testing, Support Ticket Analysis

Collaboration: Cross-functional teams, Agile/Scrum, Release Management, Mentorship, Localization (EN, DE)

WORK EXPERIENCE

Whatfix | B2B SaaS Digital Adoption Platform | Bangalore, India *Jul 2023 - Present*

Promoted twice within two years: Intern (Jul 2023) > ID I (Jan 2024) > ID II (Mar 2025)

Information Developer II *Mar 2025 - Present*

Pods: Workflow Engine, Seek, Self Help, App Engine, Labs Assistant

- Owned documentation strategy across 3+ product pods, delivering zero-escalation releases across 20+ rollouts
- Built 6+ automation workflows, reducing documentation maintenance effort by ~60% across 500+ articles
- Leveraged product analytics to unblock a key OKR, enabling same-day access to historical data and eliminating ~4 weeks of instrumentation delay
- Led usability testing and feedback loops, generating 100+ insights and driving ~15–20% improvement in feature adoption; supported adoption through 40+ customer-facing videos and community content
- Streamlined release collaboration with PM, UX, and Engineering, reducing last-minute documentation changes by ~30%
- Mentored 2 interns, enabling independent ownership within onboarding timelines
- Presented at an external technical writing event on Writer-Led Innovation, recognized by senior industry professionals

Information Developer I *Jan 2024 - Mar 2025*

Pods: Studio (Guidance), App Engine, Workflow Engine, CAP

- Improved documentation usability through customer insights and cross-functional collaboration
- Designed and deployed DAP content (Flows, Smart Tips, Launchers) to improve feature adoption and reduce friction
- Maintained and reviewed 200+ support articles and 200+ Confluence articles (EN & DE) per review cycle
- Maintained 1–3 day turnaround on Jira tickets, resolving 50%+ independently
- Contributed as early-access tester, with product and UX feedback incorporated into releases
- Improved documentation processes to enhance review efficiency and alignment

Information Developer Intern *Jul 2023 - Jan 2024*

Pod: Studio (Guidance)

- Took ownership of Studio pod within the first month, delivering release articles, FAQs, troubleshooting guides, feature videos, and onboarding content
- Created community content and product tips; peer-reviewed 150+ articles; scored 95% in product knowledge assessment
- Developed a Synthesia + Loom workflow, reducing video production time and cost

QSpiders Campus Connect *Sep 2022 - Feb 2023*

Software Engineer Trainee (Internship)

- Trained on Java, SQL, and web development fundamentals; built web pages using HTML5, CSS3, and JavaScript

Equinox Technologies *Jun 2021 - Oct 2021*

Software Developer Intern

- Developed a web-based antivirus interface using Java, HTML, CSS, and JavaScript with basic file scanning and threat detection logic

PROJECTS

Diagnostics Feature — End-to-End Documentation | Document360, Whatfix, Camtasia, Snagit *2025*

- Designed documentation aligned to real debugging workflows through hands-on product testing
- Achieved strong adoption and PM recognition for customer-centric approach

UX Writing Audit and Product Guidelines | UX Writing, Cross-functional *2025*

- Audited and standardized UX terminology across 7+ pods, improving consistency and clarity

Documentation Health Automation Suite | Python, Google Apps Script, Jira API *2024-25*

- Built tools for link validation, content tracking, and reporting, improving documentation accuracy across 500+ articles

Usability Testing and Feature Adoption | Whatfix Analytics, DAP, Research *2024*

- Conducted usability testing and deployed feedback mechanisms, generating 100+ insights to improve adoption

AWARDS AND RECOGNITION

- Above and Beyond Badge (ID II): Consistent on-time delivery across releases
- Hustler Badge (ID I): Continuous self-improvement and raising output quality
- 2x Spot Award: High-impact execution under tight timelines; creative use-case presentation at the team call
- 3x Cheers Mate Shoutout: Innovation, GTM delivery, enterprise success
- Leadership Recognition: GTM videos on LinkedIn; Analytics contribution, Documentation quality

EDUCATION

B.E., Computer Science and Engineering | Vijaya Vittala Institute of Technology, Bangalore *2018 - 2022*

First Class with Distinction | 7.6 CGPA
